

## DUST MOP TREATMENT

### Description

Spray on dust mop or dust cloth. Product contains anti microbial agents. DUST MOP is specially blended with preservative oils and ingredients that cause dust to gather into heavy lint for easy removal. Use on furniture, venetian blinds, radiators, woodwork, wood floors, window frames and sills, sealed woodwork and wood floors, autos and other surfaces where dust gathers. Use in homes, hospitals, institutions, hotels, motels, schools, offices, factories.

### Use/Benefits:

- Removes dust from any surface
- Prevents dust from scattering
- Helps capture the dust and reduce the frequency of dusting
- Develops moist, cone shaped spray for good coverage
- Easy to use without spillage or other losses from ordinary containers
- Not only accumulates dust, but brightens surface as well

### Physical Properties

Colour	-	Clear to pale yellow
